## OAK BRAND SHRUBS

A Mammoth Oak Tree is a sure sign of excellent soil. Come see our nursery and we will show you the Oak Tree to match that in any nursery anywhere. We will show you the soil that grew the Oak and that grows our Oak Brand Shrubs—that means sturdy well rooted stock, carefully graded and better than the ordinary.

### NEW BOX-BARBERRY

This is a dwarf form of *Berberis Thunbergii*, with small dainty foliage. The young leaves are a beautiful emerald green in the spring, changing to a pleasing soft green during the summer and rich red in the fall. We have tried this plant extensively and if kept pruned, say once a year, the effect is most pleasing.

It will grow 18 to 24 inches high but may be kept small, neat and compact with the greatest ease. Nurserymen north of the latitude of Philadelphia remember how badly the "evergreen" boxwood killed out a few years ago—because not entirely hardy. Box-barberry appears entirely beyond such danger and may be planted wherever a neat attractive edging plant is wanted.

*NOTE—Try Box-Barberry in place of Berberis Thunbergii which this year is very scarce and expensive.*

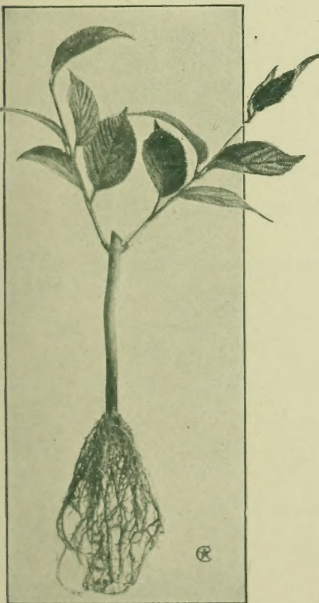

Box-Barberry. A really hardy edging plant.

New Prices. 2 yr. field-grown plants, \$10. per 100; \$85. per 1000. Strong 3 yr. size, \$15. per 100; \$120. per 1000. Write us for price of rooted cuttings.

**YOUR CUSTOMERS NEED MORE of THESE (Evergreens).**

Do you not recall how many of them have places that look nice in summer; but whose winter landscape is bare and cold. They are the people who will buy these shapely, well furnished all winter long good-lookers.

Please note carefully the varieties we offer and note that you can double your money over prices we name. If you want special quantity prices please write to us.

**HARDY VINES**

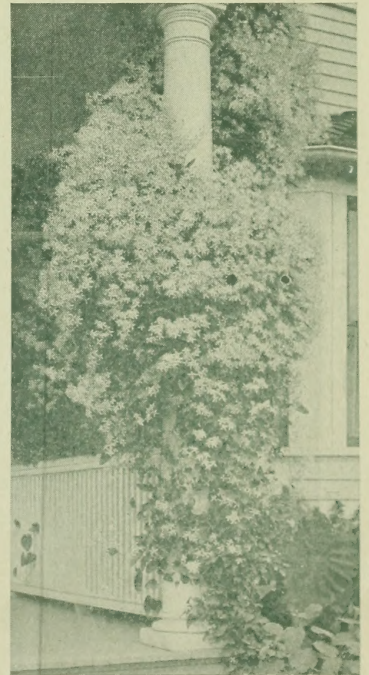

Quan.	VARIETY	Size	Year	Price 100
2365	<b>AKEBIA QUINATA.</b> A clean, rapid-growing vine with lovely foliage and graceful habit of growth, making it desirable for porch decoration and shade on houses where coarser vines could not be used to good advantage. The unique, violet-brown, cinnamon-scented flowers come in clusters in the spring and are very attractive. Any nurseryman will enjoy having this vine on his own house porch; it is healthy, vigorous, neat and attractive. You can recommend it, as a little known climber that should prove very popular (see cut).....	12-18"	1	\$16.
800	<b>AKEBIA QUINATA.</b> .....	3-4'	2	25.
400	<b>AMPELOPSIS QUINQUEFOLIA</b> (American Ivy). The true Virginia Creeper. Foliage is brilliantly colored in autumn.....	2½-3'	....	12.
1900	<b>AMPELOPSIS TRICUS. VEITCHII</b> (Boston Ivy). For decorating walls, to make a house more homelike. Many forbidding looking factory buildings have been made attractive by using this Ivy on the walls. It is no trouble for it clings as it grows. The foliage changes in autumn to crimson.....	12-18"	1	12.
150	<b>CELASTRUS SCANDENS</b> (Native Bittersweet).....	2-3'	2	20.
4000	<b>CLEMATIS PANICULATA</b> (Sweet-Scented Japan Clematis). The sweetest of all Clematis and the easiest to grow. Flowers small, rich creamy white, borne in clusters, completely covering the vine (see cut).....	6-8"	1	12.
3500	<b>CLEMATIS PANICULATA.</b> .....	1-1½'	1	15.
